Came To Wreck Shop

You remember the first time you spotted Him™. It was on the quad on the 29th of February. He™ was eating a sauerkraut hoagie and you swore you'd never love another for as long as you lived. Now He's™ hosting a party, and you've been invited! It must be a sign! Tonight, you put it all on the line for just a moment alone.

Advantage: Gains 3 Spoons whenever playing an action card related to the host.

Advantage: Charlie has to take an extra objective.

Disadvantage: Everytime Charlie converses with someone who isn't the host, they lose a Spoon.

Spoons need to leave the party

You're here to make sure your favorite idiots don't hurt themselves. They do not plan to make this easy on you.

Disadvantage: Pat loses a Spoon everytime something breaks or a fight breaks out.

Spoons need to leave the party

You are bored. Therefore, you must smash. You've already been banned from most establishments in the area, but word is there's a party going on on campus.

Advantage: Bec can "pick a fight" with other characters instead of drawing a card and playing an action. Both players roll a six sided die. *If Bec wins the roll, they steal 3 Spoons from the loser.*

Disadvantage: *If Bec loses, a Spoon gets added to the total they need to leave the party.*

Disadvantage: All objectives cost double the Spoons.
